These programs are mutual, inter-institutional arrangements through with the proficiency and services of one institute's faculty are swapped with the other institution for time-limited periods. The key intention of an academic exchange program is to deliver the prospect for the exchanged personnel to serve as "employees" of the host institution; to reassure professional development through the stimulus of a diverse setting; and for the host organizations to benefit from the knowledge and skills of the exchanged personnel. It contributions in transformative internationalization of the organization. With regard to student exchange, it helps students to enhance self-confidence and self-esteem.
