Responsible Officer: Principal in collaboration with HODs/ Director or Dean of School

1. Policy

Marian College is committed to constant and determined efforts towards productive, dynamic, mutually beneficial and sustainable collaboration and networking of the highest standard with corporate bodies, academic institutions and other organizations for fostering closer relationships with the “world of skilled work” and the “world of competitive learning”.

2. Objective

The primary objective of all collaboration is academic in nature. The purpose of the Marian Corporate and Institutional Collaboration Policy (MCICP) is to enable Marian College and its various departments to initiate, process, and establish collaboration or understanding between any two or more institutions for:

1. curriculum development/enhancement,
2. internship/on-the-job training,
3. summer placement,
4. faculty exchange
5. professional development,
6. research,
7. consultancy,
8. extension,
9. publication,
10. student placement,
11. twinning programmes,
12. introduction of new courses, and
13. student exchange

The actualization of this purpose entails ensuring skill development amongst the students, sharing resources of high-quality institutions and industries, and accessing most up-to-date worldwide knowledge for the establishment and up-gradation of academic facilities, student and staff support, and infrastructure facilities of the college.

3. Policy in true with the Vision & Mission

This policy contributes to the realization of the vision, mission and motto of Marian college through meaningful engagements with credible, socially committed and academic institutions, corporate bodies, and other organisations of excellence for advancing and promoting significant and momentous interactions and exchange of ideas, resources and knowledge which lead to enhanced performance of the college, superior exercise and nurturing of talents, skills and knowledge of staff and students in reaching their full potential with the fullness of life.

4. Policy Implementation

Implementation of the policy is a Departmental level exercise and as such each Department is encouraged and expected to initiate, process and develop new collaborations every year. Any collaboration or tie-ups has to be sanctioned by the management, especially the governing board before implementation.

5. Monitoring, review and impact assessment

College level as well as departmental level implementation of the policy is subject to monitoring by the Principal annually. A three member 'Apex Committee for Collaboration' comprising persons responsible for Research, Corporate and Institutional level Collaborations shall annually review the implementation of the policy prior to the Marian Annual Academic Planning (MAAP) and will present the review report during MAAP. Each Department is encouraged to assign a faculty member to oversee the implementation of the policy at the departmental level.

Any change in the policy or addition and deletion will come into effect only after getting approval from the college governing board. The college governing board also have the right to deny any collaboration and tie-ups with a specific institution or individual without showing any specific reason if found necessary

The policy shall be reviewed once in 5 years or whenever necessary.

Principal
