

MARIAN COLLEGE
KUTTIKKANAM
(AUTONOMOUS)

MAKING COMPLETE

Annual e-Governance Report

ACADEMIC YEAR - 2017-2018

This document highlights the implementation of e-Governance activities of Marian College Kuttikkanam (Autonomous)

The academic year 2017 – 2018 witnessed streamlining and extension of many activities of the previous year. Additional features were added to most of the software used for e- Governance incrementally.

Administration

- Admission process is now managed by Rovon Software's ERP

Finance and Accounts

- Continued the usage of Tally eRP 9 software and MS Excel for the accounting needs

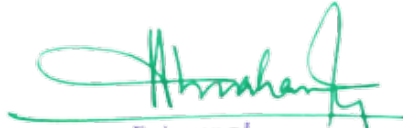

Student Admission and Support

- Owing to the Government's push for digital economy, there was an increasing demand for digital payments. We took this opportunity to integrate payment gateway service in the College website. This initiative was met with great positive response from the student community.

Examination

- More features of **MOODLE** LMS were used by the faculty members, especially in the **Quiz** and **Assignment** activities.
- In addition to Question Bank Generation additional features were added to **SMARTe**:
 - Handling the Continuous Assessment marks entry and internal marks generation.
 - To make timely data entry by the teachers, COE could now set **deadlines** for each task.
- Dedicated support was made available to faculty members in SMARTe data entry tasks.
- **ROVAN** EMS features like exam seating arrangement, student registration and hall ticket generation were used by COE office.
- Need for a total ERP solution was felt by all the stakeholders and the management decided on to deploy a customized version of AES ERP called **mcka.in**.
- It was decided that mcka.in features will be rolled out in a phased manner.
