FOURTH CYCLE OF ASSESSMENT

United Nations Academic Impact (UNAI) is an initiative that aligns institutions of higher education with the United Nations in supporting and contributing to the realization of United Nation's goals and mandates, including the promotion and protection of human rights, access to education, sustainability and conflict resolution. UNAI has created a vibrant and diverse network of students, academics, scientists, researchers, institutions of higher education, continuing education and educational associations. The work of these institutions is vital to achieving the Sustainable Development Goals as they serve as incubators of new ideas and solutions to the many global challenges we face. United Nations Academic Impact provides the integral link to the stakeholders to ensure that the international community harnesses the energy and innovation of young people and the research community in service to humanity.
