(AUTONOMOUS)

Hazardous Waste Management

Submitted to
THE NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL (NAAC)
FOURTH CYCLE OF ASSESSMENT

Functioning of the chemistry lab is based on the principles of Green Chemistry. Chemistry practical are conducted in such a way that less chemicals are consumed and waste produced is also minimum. Gaseous pollutants formed in the lab are removed by an efficient exhaust system. Liquid effluents are allowed through PVC pipes after proper dilution and collected in safe disposal tanks. Students conducting chemistry experiments were given proper awareness regarding individual safety precautions, environmental pollution and laboratory safety measures at the beginning of practical sessions.

Chemistry lab with proper hazardous material disposal system and Exhaust Fans
